## COTTON MEETING OPENS MONDAY

### \$92,670 IS LOW BID ON SPLAWN-YARRELTON ROAD

### Yoemen to Face Year's Big Test

The Yoemen are now facing their hardest assignment of the season against Killeen here Friday night when the Kangaroos, heretofore rated the top team in the district, come down for the annual game.

In their triumph over Taylor 28 to 7 Friday night the team of Leo Jackson looked good enough to battle it out with Killeen on equal terms. The score Friday night should and could have ended 28 to 0 but Coach Jackson, taking no chances, pulled his varsity out in the late 4th quarter to avoid chances of injury.

Except for a few bruises the Yoemen came out of the game in good shape. Coach Jackson said that Gabby Hauk's hand was only bruised and he will be ready to go Friday night. He is one of the starters in the back field and was a standout in the Taylor game.

Like the Ducks, the Kangaroos have a veteran line and on the whole better than the Taylor team. There was no disposition here to discount the Kangaroos. If the Yoemen win it will be a minor upset.

With the district flag almost within their grasp, save the doubtful outcome of the game with Killeen, the Yoemen will be going all out here Friday night. If they win they still have Rosebud and Belton.

The Kangaroos are suiting one of the finest backs the conference has ever produced. He is Wayne Arnold, scoring leader for the district. So far he has been stopped only one time and that was when the Kangaroos took on Gatesville and lost 12 to 0.

Killeen is much stronger than Taylor. The game here Friday night will be bitterly contested.

### LIONS CLUB MEETING FOR COTTON PARLEY

The Cameron Lions Club has arranged a meeting for Monday, October 28 when the committee from Congress convenes here to discuss farm problems and to revive interest in cotton.

The club has planned a timely service to the visiting delegation and will provide a reception and luncheon for the members of Congress who are to be here for the meeting.

Indications were that the meeting will be attended by a large number of cotton producers from this section of Texas. Only two meetings are being scheduled in the state, the other at Lubbock.

Congressman Poage was given the privilege to name the meeting place and he selected Cameron and Lubbock.

Whether the city would be entertaining people from many counties on that day was not clear, but generally business men were thinking in terms of an overflow crowd.

### Price Daniel Speaker For Armistice Day

Price Daniel, of Liberty, Democratic nominee for Attorney General, has accepted the invitation of the American Legion here to deliver the address on November 11.

Emmett Streetman, 11th District Commander of the Legion said early Thursday that he had just talked to Mr. Daniel.

Mr. Daniel has an engagement in Georgetown at noon and will be here shortly after that hour to meet with the veterans here.

AUSTIN, Oct. 22.—A low bid of \$92,670 for construction of Farm-to-Market Road No. 485 from Splawn to Yarrelton was submitted by Thomas & Ratliff of Rogers, it was announced here Tuesday by the State Highway Commission.

The project calls for grading, drainage structures, flexible base, and base preservative on the 6.5 mile section which will serve an important Milam county rural area with an all-weather road.

Construction is expected to begin within 30 to 60 days, provided formal contracts are approved by the State Highway Commission and concurrence obtained from the Public Roads Administration. The specifications will require that the project be completed within 100 working days after construction begins.

The Milam county project is a part of the State's three-year postwar farm-to-market program.

State Highway Commission Chairman announced last week that 197 contracts had been awarded for 1,572 miles of such roads since January 1. "Our contractors have already completed 24 of these projects calling for 176 miles at a cost of \$1,185,259, or an average of \$6,500 per mile," Redditt said.

"The farm-to-market roads and primary highways selected for construction under the State's three-year program will carry 78 per cent of the State's motor traffic and will bring a paved road within two miles of 72 per cent of all rural dwellings in Texas," the chairman announced.

### CAMERON HOSPITAL GIFT TO CATHOLIC SISTERS

Deed has been filed for record in the office of the County Clerk by Dr. E. Rischar in which the Cameron Hospital becomes the property of The Sisters of Charity of the Incarnate Word, Diocese of Galveston.

The instrument recites that the property shall be operated as a hospital and in the event it is abandoned as such will revert to the grantor in his lifetime and beyond that date if the hospital is abandoned by the Sisters of Charity it will go to the Diocese of the Catholic Church in which Cameron Parish may then be located.

The Cameron Hospital will be operated by the Catholic Sisters of Charity. While Dr. Rischar will not retire from practice, he is thought to be interested in continuing as a member of the staff at the hospital.

### OLD ROBBERY ATTEMPT CASE IS SETTLED HERE

Oscar Perkins, indicted by the May Grand Jury for attempt to rob by assault, was permitted to pay a fine of \$25 and costs Monday when the case was settled by agreement between County Attorney Gunn and Camp & Camp, attorneys for the defense.

Mrs. Mollie Ely of Gause, who was struck by Perkins and knocked to the floor of her home, is quite ill and unable to appear in court and her testimony was vital in the case. The state was handicapped and a compromise was effected.

According to officers, Perkins and Mrs. Ely's husband came home after dark and Perkins was drinking. He attempted to rob Mrs. Ely by taking some money reputed to be hidden between the mattresses of a bed, and when Mrs. Ely resisted, he knocked her down.

Neal Ely, son of Mrs. Ely, and his wife, arrived at the home while the robbery attempt was in progress and he attacked Perkins and drove him from the house. Perkins escaped by running away. He was arrested and in default of bond spent three months in jail.

### LEGION REPRESENTATIVE VISITING 11TH DISTRICT

R. M. Marr, representing the national headquarters of the American Legion, reached Cameron Monday to confer with local leaders while making a tour of the 11th District.

Mr. Marr's itinerary was being mapped by Emmett Streetman, 11th District Commander, and a busy day was spent Monday and Tuesday visiting local posts in Milam county.

Mr. Marr said that at the present the National Headquarters is giving special attention to smaller communities where posts are being organized. In this way the Legion service can be extended to all parts of the country. The Legion has embarked on a new and intensive program of service to veterans.

Mr. Marr comes from Indianapolis but is a Texan. He is a veteran of the late war and wears the Purple Heart.

### ALUMNI PROGRAM FOR NOVEMBER 8 ANNOUNCED

### Refund Is Made To Primary Candidates

A refund of 9 per cent of the total assessment has been mailed to candidates in the recent primary elections, it was disclosed by J. B. White, chairman of the Democratic Executive Committee.

Checks were mailed early this week. The committee at its meeting on September 2 authorized the refund. This policy is in keeping with the practice of the committee in the past.

Each candidate received 9 per cent of his original assessment. With the exception of those candidates whose assessments were so low that checks would be less than \$1.00.

## Armistice Day Plans Announced For City

Arrangements are being made to seat 500 at this dinner, the price of the tickets will be \$1.00. November 11th is on Monday and the Legion Post will request all business houses to close at noon on that day, thus giving all their employees an opportunity to attend this dinner and enjoy the program.

### GRAND JURY RETURNED 4 INDICTMENTS MONDAY

Four bills of indictment were returned here late Monday by the Grand Jury in District Court, three of the grade of felony and one a misdemeanor.

The jury recessed subject to recall by District Judge John Watson.

An indictment for murder was returned against George Andrews of Rockdale in connection with the slaying of Ernest Andrews in a street fight in which his son, Newton Andrews, participated.

Newton Andrews was indicted for assault with intent to murder.

According to officers Newton Andrews and Ernest Andrews, cousins, engaged in a fight and in the course of the engagement Ernest Andrews drew a knife and severely cut Newton Andrews.

George Andrews, father of Newton, went to the aid of his son and fired two shots, both taking effect in Ernest Andrews, who died instantly. Newton Andrews was taken by his father and others to a Temple Hospital.

Mrs. Bain was killed instantly. In the Baggett car were two A.M. students, Stuart Wood and Jack Pankonein, who escaped injury. The crash occurred on Highway 36 near Pettibone, about 6 miles west of Cameron.

### SPECIAL TRAIN TO BRING KILLEEN FANS TO GAME

A football special over the Santa Fe from Killeen will bring Kangaroo fans to Cameron Friday night for the game with the Yoemen, it was announced early Wednesday by Superintendent W. T. Hanes.

Mr. Hanes said that the school authorities at Killeen had telephoned him. Cameron school buses and private cars will be placed at the disposal of the Killeen fans for free transportation to the stadium.

Mr. Hanes said that the street leading from the gymnasium to the main entrance to the football field will be reserved for the buses and for Killeen fans and all other traffic is to stay clear of this street.

### LON J. DUNHAM DIED AT HOME WEDNESDAY

Lon J. Dunham, 74, widely known Cameron resident and pioneer of Milam county died from a heart attack at his home in this city at 7 a. m., Wednesday, October 23.

Mr. Dunham was found dead in his bed at home by members of the family. He had been in the downtown district late Wednesday and until the hour of his retirement for the night was in his usual health. His death came with shock to many throughout the city and county.

Lon J. Dunham was born January 16, 1872 in New Orleans, La. He came with his parents to Milam county when a small boy. The family settled in the Sharpe community where Mr. Dunham spent a major portion of his life, having engaged in farming until he moved to Cameron some years ago.

Mr. Dunham was married to Miss Roxy Lewis on December 27, 1896. His wife died some years ago. He made his home in Cameron with his daughter, Miss Bessie Dunham.

Mr. and Mrs. Dunham were the parents of 10 children, 8 of whom survive as follows: Miss Bessie Dunham of Buckholts, Mrs. Ray Green of Sharpe, Mrs. W. W. Harmon of San Antonio, Mack Dunham and Bailey Dunham of Houston, Wilbert Dunham and Wallace Dunham of Bryan. Three brothers and two sisters survive as follows: Dolph Dunham of Houston, Jack Dunham of Sharpe, Gause Dunham of New Mexico, Mrs. J. C. McCoy of Temple and Mrs. Ern Turner of Portland, Oregon. Six grandchildren and one great grand child also survive.

Funeral services were to be held at 3:15 p.m., Thursday, Oct. 24 from the Methodist church in Cameron with Rev. K. R. Isbell, pastor, conducting. Interment will be made in the Sharpe cemetery with the Marek-Burns Funeral Home directing arrangements.

Their first child, Margaret, is now three years old.

Revival of the waning cotton economy will be sought here Monday, October 28, when a sub-committee of the House of Representatives Agricultural Committee convenes in Cameron.

Congressman W. R. Poage, as a member of the Committee, named two points in Texas where such a conference is to be held, on in Cameron and the other in Lubbock.

The committee is directly interested in cotton and the meeting here will seek the views of producers and all who are a part of the production pattern in this area.

Since cotton production has virtually ended in this section of Texas it is doubtful if anything can come from the meeting that will revive it. The congressmen, however, are interested in the viewpoint of the cotton farmer and are seeking that information by meetings in the farm country.

Farmers are especially urged to attend. The meeting will open at 10 a. m. in the district court room at the court house.

Removal of price controls and restoration of gambling on stock exchanges, has sent cotton prices down to a level that may lead farmers to wonder whether they can safely launch upon operations next season with any degree of assurance they can get a fair price for what they produce.

### JOHN BARTEK DIED AT MECK HOME WEDNESDAY

John Bartek, 79, died at 8 a. m., Wednesday, October 23 at his home in the Meeks community near Burlington.

Mr. Bartek was a native of Europe and one of the pioneers who settled in the Meek community. He was born March 7, 1867 and came to this country in 1888 and with his parents settled at Meeks where he had made his home since.

Mr. Bartek was a member of the K. J. T. Lodge. Surviving are his widow, Mrs. Annie Bartek, and one brother, Sylvester Bartek, of the Meeks community.

Funeral services will be held at S. S. Cyril and Methodius church at Marak with Rev. Ben Holub officiating at 9 a. m., Friday, October 25.

Interment will be made in the Catholic cemetery at Marak with the Marek-Burns Funeral Home directing arrangements.

### EXTRA POLICING ORDERED FOR GAME FRIDAY NIGHT

A special request of local officers has been made by Superintendent W. T. Hanes to police the football field Friday night when the Killeen team plays the Yoemen in their annual conference game.

Relationships have been high between the fans and officers have been most obliging. Sheriff Carl C. Black and City Marshal Jim McGoldrick will supply the necessary deputies to enforce ground rules and to keep order.

It was understood that a number of State Highway Patrolmen will be here to work with the traffic and the crowds.

Rowdism and drinking are to be suppressed. This will be pleasing to the people. Drinking and gambling at high school games has become a problem and the Texas Interscholastic League has taken cognizance of this situation. Cameron games have been singularly free in most part of this sort of conduct.

Since the crowd will be very large extra policing is regarded as necessary.

Mr. and Mrs. J. W. Hart of Houston spent Sunday in Goose Creek.

...Always The Smallest Item in Your Family Budget

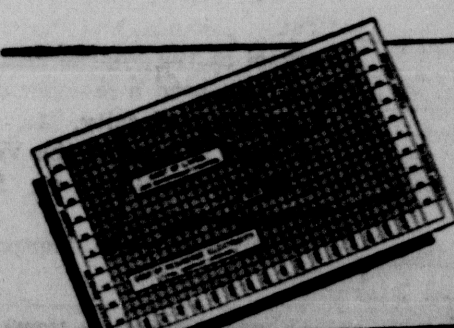

Before the war, your dependable TP&L Electric Service was cheap... the smallest item in your family budget.

During the war, it needed no ceiling to keep its price down... and its supply was abundant for all needs.

Since the war, even though other living costs have gone up sharply, your TP&L Electric Service has gone down in price again... MORE THAN EVER, it's the smallest item in your family budget.

Shortly after the war's end, this Company voluntarily began installation of reduced electric rates, beginning with the metropolitan areas and completing the rate change in the rural areas recently. This latest major rate reduction... the fifth since 1929... means a saving of more than \$1,000,000.00 a year to customers of this Company. It means that your electric servants work for you at lower cost than ever before! It means that the average cost per kilowatt-hour for TP&L service today is less than half of what it was only 20 years ago!

It is especially comforting in these days of sharply rising living costs to know that your TP&L Electric Service rates are continuing their long-established downward trend... in keeping with this Company's policy always to provide its customers with the highest standard of electric service at the lowest possible cost.

No one did. So Mrs. Hester wears it daily now.

GENE SALACH

Here is one very good reason why the Yoemen are consistent winners this year. He is Gene Salach, 160-pound tackle. He is the line backer on defense in the new shift and can play any position in the line from tackle to tackle and do a good job of it, runs a current comment. Gene comes from a family of outstanding Yoemen, being a brother of Bob Salach, great center.

## Grass is on the Move

Out of the sandhills of Nebraska, up from the Chama country of New Mexico . . . all the way from the state of Washington to Texas, there's a flood of livestock on the move. Feeder cattle and lambs raised in the great grass-growing regions of the United States are flowing into the feed lots of the nation. This movement reaches its peak each October, and its significance is of great economic importance to all of us in the livestock-meat industry.

These millions of head of feeder cattle and lambs are nothing more than grass turned into meat. True, these feeders will require a certain amount of grain to finish them as satisfactory meat animals. That's why they go into the feed lots. But were it not for these grazing animals, 779,000,000 acres of the land area of the United States would produce little, if any, human food. In other words, 41% of the total land of our nation consists of grass land which cannot be used for producing other feeds and foods. Also taking into consideration the plowable land used to produce pasture, hay and other forage crops, approximately half of our land would produce no food of human value, were it not for livestock.

Of the total feeds consumed by beef cattle, 78.7% is grass, hay and dry roughages. With lambs, it is 95.6%. These are official figures of the United States Department of Agriculture. Thus,

the grain that goes into feeder cattle and lamb rations is but a relatively small part of the feed that makes our meat. A minimum of corn is needed to bring feeder steers from 700 to 1,000 pounds when the principal part of the ration is made up of fodder, corn silage, other available roughages and some concentrates.

In addition to utilizing grass which otherwise would be wasted, the production of livestock furnishes the nation with its finest nutritional food—meat. In the great movement of meat from the Western range to the kitchen range, the stop-over in the feed lots increases the amount of meat. It also levels out the fall flood of livestock into a more even year-round marketing. Thus seasonal price fluctuations are not so marked. In the production of livestock, the majority of America's 6,000,000 farmers and ranchers find the chief means of marketing their grass and other home-grown feeds.

## MANY ACCIDENTS CAN BE PREVENTED

Every three minutes there is a farm or ranch accident. Unless something is done, 19,500 people may be killed in such accidents this year. Another 1,800,000 may be injured. We at Swift & Company want to help cut down this accident toll. That's why we print the pictures and the questions which follow. Little chances not taken, little repairs made, can prevent big accidents. Do you take the chances shown below? Check yourself.

☐ I never handle animals carefully

Do you have a strongly built bull pen? Do you lead the bull around on a rope because you do not have a bull-staff? Do you approach horses from behind without speaking and patting their rumps to warn them? Then watch yourself . . . one out of four fatal farm accidents occurs in handling livestock.

☐ I approach animals without warning

☐ I am never careless around machinery  
☐ I sometimes take chances with machinery

Do you leave safety shields off power shafts, gears and chains? Wear loose-fitting clothing that may catch in machinery? Operate the tractor on dangerous inclines or banks? Mishandled machinery and equipment are involved in nearly one out of three fatal farm accidents.

## SELECTING JUNIOR CLUB STEERS by W. H. Peters University of Minnesota

Every boy and girl who enters a junior feeding contest would like to secure a feeder steer good enough to become a champion. In selecting calves with this high aim in mind, the "satisfactory prospect" must be a purebred or high-grade of one of the recognized beef breeds, Shorthorn, Hereford, or Angus.

The calf or yearling steer in thin condition must appear short in legs in proportion to his depth of body, or to put it the other way around, he must appear deep in body in proportion to his length of legs. He must then appear to be wide in his body and thickly covered with muscle, especially over the loin and down through the thighs.

The feeder calf should have a short neck and a short, broad head. He should appear moderately fine or small in the legs and head as an indication that he will fatten smoothly and show quality when fat. Large, coarse-appearing calves and small over-refined ones seldom develop into winners. Calves that appear nervous and easily excited or frightened should be avoided as they are likely to not do well and to be hard to train to lead.

## Persimmons Grow Well In Cameron; Cluster Looks Like Oranges

Mistaken by many for oranges, a growth of persimmons brought in by Dr. J. E. Arnold, have attracted quite a lot of attention in the show window of The Herald.

In the cluster are nine persimmons, one of the most prolific growths ever

The persimmon is the Japanese variety and regarded by many as one of the celebrated delicacies of fruit. When eaten in salad form with dressing and flavored with cinnamon, Dr. Arnold says they are delicious.

## TEAMWORK

While we were preparing the "Grass is on the Move" article for this page, a cattleman friend from one of the western range states called to see me. I told him about the article. "It points out," I said, "that lots of food for humans is produced from areas that otherwise would be waste land if it were not for meat animals."

He said, "That's good! There are always misguided people who complain that it's a waste to feed corn and other grains to livestock. They say people ought to eat the grain, instead of turning it into meat. They forget that most of that meat is made of grass, hay and other roughage that people can't eat."

"Another thing too many people forget," he went on, "is the important job you meat packers do in getting meat to the people who want it. I understand that meat travels an average of more than 1,000 miles from producers to consumers. That must be so because we fellows west of the Mississippi raise two-thirds of the livestock. But two-thirds of the meat is eaten east of the Mississippi, where most of the people live. In a way, we who raise and finish the animals are like manufacturers. And you are our sales and distributing departments. Believe me, we need an organization that covers the nation to get our product into every market in this big country. It seems to me that you and we are in this business together, and neither could get along without the other."

It seems to me that he's right! F. M. Simpson.

**Cattle grubs** collect a heavy toll from livestock producers each year. Paul Gregg, entomologist with Texas A. and M. College, estimates that grubs cause approximately five million dollars' loss in Texas alone. Cattle grubs are an expensive pest throughout the Gulf Coast states, all the range country and everywhere cattle are produced. They can be controlled. Gregg advocates rotenone and sulphur, applied either as a dust or spray. Consult your county agent about the best time for treating your animals.

**Marketing Dairy and Poultry Products.** The same nationwide facilities which are used to distribute meat are ideal for the distribution of dairy and poultry products. All these products are perishable and require refrigeration. Many consumers buy their butter, cheese, eggs, poultry and meats from the same store. So, as you can see, it is more economical to have one Swift & Company salesman who sells 16 or more products than 16 salesmen each selling one product. Further, costs are reduced by having the same trucks deliver these products at the same time to the same dealer.

By preparing, handling and selling dairy and poultry products, as well as meat, distribution costs are reduced on all these foods. Our objective is to provide wider outlets for the products of America's farms and ranches. We have a booklet entitled "Dairy and Poultry Products" which we will gladly send you. Just write to Swift & Company, Department A-3, Chicago 9, Illinois.

From where I sit ... by Joe Marsh

**On Playing  
the Fiddle Badly**

A favorite recreation in our town is getting together in one or another's home and making music. There's somebody at the piano; a guitar; a fiddle player; and Molly Birtles even has a harp!

What comes out isn't the best music in the whole world. In fact, a lot of it is downright bad. But nobody even thinks to question or to criticize.

Because the spirit of harmony is there—harmony between folks who like each other's company, who enjoy the simple, homey atmosphere

—with nothing more exciting than old songs, and a glass of moderate beer or cider.

From where I sit, it's a heap more important to be a poor fiddle player, than not to play at all. More important to be a part of the American scene—with its community music, home entertainment, friendly glass of beer—than to hold out for professional perfection. (Besides, I like to play the fiddle—even badly!)

# YOEMEN BEAT TAYLOR 28 TO 7

## ROCK-RIBBED BATTLE IS WON IN RUGGED FASHION

Happy Days Are Here Again . . . and the football victory famine has ended.

In a rock-ribbed battle which they won in rugged fashion, the Yoemen defeated Taylor Friday night 28 to 7. It might have been more but Coach Leo Jackson pulled his punches in the 4th quarter and sent in his reserve team.

There were two who did not report out to the bench. They were 60-minute-men, Jimmy O'Neill, center who turned in one of the best games of his career, and Rocky Rugged Russell Wallis, who played the line from end to end and tossed them in the dugout.

Scarcely a play in the entire game in a thrilling battle of lines, failed to disclose No. 50 and No. 66 in the thick of it. While the Cameron backs were at times impressive, the verdict is line play. The Yoemen line opposed by a veteran Taylor line, rose to the occasion and limited the Ducks to 30 yards and 3 first downs.

Taylor, highly confident, was stunned by a series of thrusts and passes in the second quarter and with the ball on the 5 Michalka who was to score another touchdown, took it over. Paul Burke, who lobbed three through the uprights, added the extra point and the score was 7 to 0.

The Yoemen won the toss and elected to receive. T. J. O'Neill got the ball on his 20 and ran it back 15. The Taylor forwards were taking no chances. The Yoemen got away to a wobbly start and failed on three passes, then Burke kicked out on the Duck 20. The first quarter was scoreless but the Yoemen were pushing the Ducks around a bit. About four minutes of the second quarter had elapsed when the ground game started clicking. It was O'Neill, Michalka and Burke. The ball was on the 5 and Michalka carried over. The Yoemen kicked off to Taylor and the Ducks tried passes but they wouldn't work and their ground game was bottled up by the Cameron line. On their own 30 the Ducks backed up to kick when Clark misjudged a fast Cameron line. Joe Hawkins, who played a great game at left end position broke thru and blocked the punt. With him was Gene Salach who scooped it up on the first bounce, his heels on the and he streaked 30 yards for a touchdown. The Cameron fans, some 2000 of them, It was a bit of heads-up football and rose in tumultuous cheers. Charlie Riola was commanding as he kicked the extra point squarely through the posts and it was 14 to 0.

The Ducks came out for the third quarter pepped up by their Coach Heck Johnson and were a different team. The Duck line play was superb but the Yoemen were not to be denied. Midway of the third quarter T. J. O'Neill got loose for 30 yards around the Taylor left end and two plays later Paul Burke, looking very good, raced the ball to the Duck 30. On the next play as the fans rose and called for a score, Lawrence Michalka who hands off from the T completely fooled the Ducks and on a 'bootleg' play skirted the Duck left end for 30 yards and a touchdown. He went over stand-

ing up due to a bit of fine line blocking over there by Joe Hawkins who tossed a would-be Duck tackler off the grass. Paul Burke lobbed another through and it was 21 to 0. There was a stony silence in the Taylor stands. They said they wouldn't accept defeat until it was tossed into their laps. Well, Russell Wallis, who said that when he was a little boy last year that big Miller handled him roughly, not only got his revenge on Miller but tossed defeat into the laps of the Duck fans.

Mid-way the fourth Michalka started passing. His arm which had over-shot Joe Hawkins once, found its mark this time and Joe was over for the fourth touchdown, scored on the north goal. It was a 15-yard pass play and nobody touched Joe as he raced away for the score. Paul Burke laced it through and the score was 28 to 0.

Taylor scored a touchdown on next to the last play of the game. After Hawkins went over to make it 28 to 0. Coach Jackson went in. The reserve team looked very good on pass defense but finally were placed back on their 7 and then penalized to the 1. Raymond Clark for the Ducks, who sparked his team well for the night, went over for the score. He then added the extra point. It was 28 to 7 and the game was over.

D. D. Moseley, mighty mite in the tailback position for the reserves, got a first down off the Taylor line and Garcia backed the Ducks up on their goal with kick-outs.

Billy (Gabby) Hauk, was hurt, his left hand, thought to have been broken, was only badly bruised in the 4th quarter. He started the Yoemen ground game off well in the second quarter.

## Novel Western Story Corral Great Cast

One of the most novel plots in a Western picture will be on view when Paramount's romantic drama of the exploits of the Texas Rangers comes Thursday to the Milam Theatre, according to advance word from Hollywood.

The fact that such valuable players as John Howard, Ellen Drew, Broderick Crawford, May Robson, Akim Tamiroff and Charley Grapewin are prominent in the impressive cast, indicates strongly that Paramount is putting out something really important in the way of Westerns.

Advance scouts in the film Mecca on the coast report that Writers William R. Lipman and Horace McCoy have fashioned a story replete with novel and ingenious twists and turns. One of the features of the plot, we understand, is a mystery that will keep the customers really guessing. Paramount is holding the plot of this picture close to its vest.

However, it is said that in this fast and furious picture, the Texas Rangers are using patrol cars in addition to pintos and short-wave radio sets in addition to six-shooters in their war on a band of modern cattle-rustlers.

The story deals with the puzzling periodic disappearance of thousands of heads of cattle from the White Sage Ranch, owned by a bellicose but beloved widow, May Robson. Unable to cope with the situation, she appeals to the Texas Rangers. When help from that quarter arrives, it is in the person of hard-riding, true-shooting Rangers John Howard and Broderick Crawford. Howard takes a little time out from his duties serving justice to also serve romance, for on the White Sage Ranch he finds Ellen Drew, the spitfire granddaughter of May Robson. Ranger Howard then proceeds to carry on a courtship in a rude, but certainly original manner.

Akim Tamiroff adds another characterization to his already long list of notable screen portrayals, this time as a Mexican ranch-hand, who risks his life to bring Ranger six-gun justice to the cattle rustlers. Charley Grapewin is a retired Ranger who is always pestering May Robson to marry him and forget that 40 years before, a pretty book-seller sold him a dictionary.

James Hogan directed the romantic drama of flying hooves and lightning trigger-fingers.

## TWO-WAY TRACTOR PLOW

This field is being plowed on the contour, across the slope, with all furrows turned in the same direction—uphill. Rain water caught by the lapped furrows is held on the slope to benefit crops. Uncontrolled, that same water might easily form ruinous gullies or leach soil fertility by sheet erosion.

The Allis-Chalmers tractor-mounted two-way pick-up plow is hydraulically raised and lowered. At the end of the furrow pictured here, the righthand moldboard will be lowered for the return trip.

An Allis-Chalmers two-way plow can help greatly to conserve soil and moisture on sloping fields. We will be glad to give you full information.

## Enough Food is no Accident

It is no accident that the largest crops in our history are being harvested this year when we, and the rest of the world, need them most.

In spite of war, loss of labor and little new equipment, the American farmer has again taken care of us and provided a life-saving surplus for abroad.

How do our farmers do it? How is it that only sixteen per cent of our people can feed all of us and go on breaking records in the face of circumstances which slow up industry?

There are three reasons: First, farmers work harder and longer than most other Americans. Second, they know how to make the best use of tools. And, third, they have a long-standing partnership with industry seeking to satisfy their urge to get more out of the land for the same labor. Farmers are still practicing the kind of enterprise that built America.

National thanks are due the farmer for the job he has done in the last five years. Universal respect is due him for his foresight in helping industry equip farms to meet a whole series of emergencies.

BUT . . . we should not crowd our luck, or the farmer's luck either. Too many farm tools are now worn out. Without new ones production may go down. Farmers need over eight hundred million dollars' worth of new implements and equipment. It is up to industry and labor to keep wheels turning to produce them, but any recurrence of strikes would prevent this.

America should see that the hard-working farmer gets what he needs.

## Harpo's Chasing 'Em Again in 'A Night In Casablanca' at Cameron

Anyone who was in the vicinity of the General Service Studios in Hollywood during the filming recently of "A Night in Casablanca," starring those three zany Marx Brothers—Groucho, Harpo, and Chico — might have heard high-pitched feminine screams emanating from the interior. We want to assure them that it did not mean that the Men from Mars had landed nor that the formula for nylons had been reported lost. The screams probably came from one of the blondes whom Harpo fiendishly pursued all during the picture.

The Mad Marxes, as they are generally called in Hollywood, are back with all their well-known enthusiasm after a long absence. In collaboration with David L. Loew they produced this current comedy which has its locale in Casablanca, where anything can happen. The story involves international intrigue, a poignant love theme, stolen art treasures, and murder!

The young love interest is portrayed by Lois Collier and Charles Drake. Drake has just been signed by David L. Loew to a seven year contract.

Songs and glamour are provided in the person of red-haired, svelte Lissette Verea. Miss Verea, the Roumanian threat to Hollywood pulchritude, was imported from New York after Director Archie Mayo discovered her singing in a night club.

Supporting roles are played by Sig Ruman, Frederick Gierman, Harro Mellor, Lewis Russell and Dan Seymour. The film, a United Artists release, appears on the screen at the Cameron Theatre Saturday.

## Film at Cameron Shows How to Meet a Girl

The right way to become acquainted with a strange girl on the street is demonstrated by Franchot Tone in Universal's "Because of Him."

It works — almost! on Deanna Durbin. Tone at least learns her telephone number in a gay new film which comes Thursday and Friday to the Cameron Theatre.

"Nearly every man," asserted the actor, "has sometime in his life seen a pretty girl on the street he would like to meet.

"But there's practically nothing the average guy can do about it, because it's not the custom to force an acquaintance with a strange woman."

Tone, who has played numerous screen wolves, scorns in "Because of Him" to use any simple method like tipping his hat and smiling.

Instead, he tries the irate citizen technique. He seizes Deanna's arm as she is about to cross the intersection and scolds her for going against the traffic light.

For screen purposes, anyway, explains Tone, the angry stuff works better than the smile.

But in real life? . . . "Well," added the actor, "Every man is on his own."

Charles Laughton is co-starred with Tone and Miss Durbin in "Because of Him." Richard Wallace was the director.

## Miss Stanwyck Plays Menace in New Drama

What sounds like a powerful dish of exciting melodrama is due to arrive next Sunday at the Cameron Theatre for showings Sunday and Monday, when Hal Wallis' production of Paramount's "The Strange Love of Martha Ivers," starring Barbara Stanwyck, Van Heflin and Elizabeth Scott, opens at that playhouse. The film also introduces the latest in the rapidly growing list of Wallis discoveries, Kirk Douglas, product of the Broadway stage.

"The Strange Love of Martha Ivers" tells a sensationally unusual tale, an insight into the diabolic mind of a completely evil woman. As a child she had beaten her wicked old aunt to death, an act which sets the pattern for her dark future. Her outlook and actions shadowed by the

guilty knowledge of murder, she sends an innocent man to the chair for the crime, flaunts her infidelity into the face of, and completely dominates, her weakling husband, and twice attempts to kill the man she loves in her own warped way.

To Barbara Stanwyck falls the tense, dramatic role of Martha, the malicious, a role more hateful than the one she played in "Double Indemnity," which landed her among the Academy Award nominees. Recently discharged from the armed forces, Van Heflin, who won a 1941 "Oscar" for his performance in "Johnny Eager," has an equally virile part as the gambler whom Martha has loved from childhood. Golden-haired, husky-voiced Elizabeth Scott, successfully launched in Wallis' "You Came Along" is said to establish herself firmly in the film constellation with an outstanding characterization as a girl from nowhere, who strings along with Heflin, Kirk Douglas, the newcomer, plays Martha's spineless husband, and his performance has evoked raves from previewers.

Lewis Milestone directed.

## Jungle Sounds Abound In 'White Gorilla'

The haunting cry of the laughing hyena, the roar of lions before the attack, the shrill piercing cry of

startled monkeys and the eerie sound of trumpeting elephants on stampede. These you will hear when you see "The White Gorilla" coming to the Milam Theatre Sunday and Monday.

Absorbingly interesting, replete with fast action, an intense, colorful account or a thrilling adventure that stands heads and shoulders above all previous jungle productions. There are amazing and beautiful scenes of a story for persons of all ages to see. This is not a jungle exhibition in search of big game but big game in search for adventures brave enough to venture off the beaten track in the heart of the wilds. It would take days to tell what one can see in 75 minutes in this thrill-packed picture, "The White Gorilla."
